

I have XM radio in my vehicle. My husband and I enjoyed it so much we purchased it for his vehicle as well. We love the different selections it has to offer without commercials, and the up to the minute traffic updates. Both my husband and I use the traffice and weather. He drives about 45 miles one way and I drive about 25 miles one way to work. It keeps us informed as to what is going on. You can't get that from the regular radio or even the news for that matter. We have become faithful listeners to the XM and have shown our friends who have also purchased the system for themselves. We pay for the luxury of having XM. It is our choice to purchase it. I hope that the fact that every person who has XM has paid for the service and is under no obligation to keep it. I urge you to to reject NAB petition 04-160. I pay for the service and I deserve the best. Thank you for your time.
